*Elegance and character*

Winery overview:

The soul of Champagne Dauby is the story of the meeting of two families of winegrowers, that of Thérèse Tissier and Guy Dauby, lovers of the land and wine. From a few plots inherited from their parents and at the cost of hard work, they built up a vineyard among the best hillsides of Aÿ and Mutigny. Guy and Thérèse share a common vision: passionately cultivating the natural riches of their land while respecting the land, fauna and flora. This philosophy of respect for life, of purity has been transmitted to us and today Mother&Daughter; we work in harmony with nature to give birth to terroir champagnes, flowery in aromas. The poppy symbolizes this commitment but also participates in a great adventure: to hope, to take care of oneself in order to be attentive to one's neighbor in all humility.
